

Biohear Plus

Туре	Safety	Efficacy	Recommended?
*	2	2	\bigotimes
Branded dietary supplement	Some potential for harm	No evidence that it is effective	No

In detail:		
The makers claim	It is claimed that Biohear Plus will: "ease the early onset of tinnitus or ringing in the ears."	
What is the treatment?	Biohear Plus is a capsule. It is suggested that you take two daily.¹ The ingredients of Biohear Plus are listed differently on different website, but it may contain Vitamin C, Vitamin B, hawthorne berry, garlic, hibiscus, juniper berry and green tea¹².	
What are the downsides of this treatment?	Potential side effects, allergic reactions and drug interactions from constituents. ³⁻¹² Cost. Biohear Plus costs \$69 for 30 days supply ¹ .	
Has there been research into this treatment?	There have been no papers published on Biohear Plus as a supplement, but there have been a number published on its component parts.	

What does the research say?	There is no evidence that any of the known components of this supplement are effective for treating tinnitus. ³⁻¹² Although some of the components are thought of as safe, some may be harmful including Vitamin B6 ⁵ and green tea in large doses ¹³ .
How high quality is the research?*	A-D
Tinnitus UK's opinion on this treatment:	Although independent evidence is limited, what there is does not show that the components of this supplement are effective for tinnitus and that there may be risks involved in taking this supplement. We would suggest you talk to your GP before taking any new medication or supplement. "Dietary supplements should not be recommended to treat tinnitus." 14
Would Tinnitus UK support further studies into this treatment?	No.
Comments	There appears to be a lot of similarity between the marketing and make up of this product and other products such as Tinnitus 911 and Silencil – please see the relevant information sheets for details.

^{*} A = Systematic review/meta analysis. B = Randomised control studies. C = Cohort studies. D = Case control studies. E = case studies/reports. +/- to be used to indicate quality within bands
